

miro

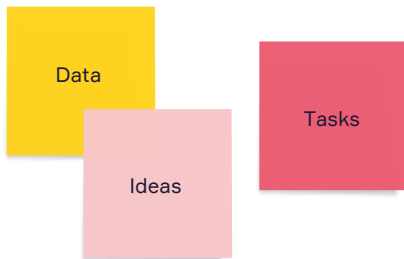

The online collaborative whiteboard platform

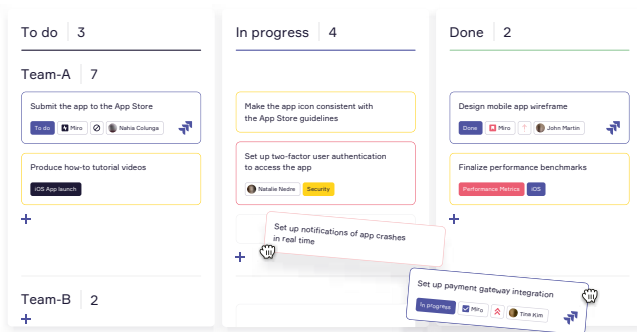

Where distributed teams get work done

Miro enables distributed teams to get work done

From brainstorming with digital sticky notes

To project planning and managing agile workflows

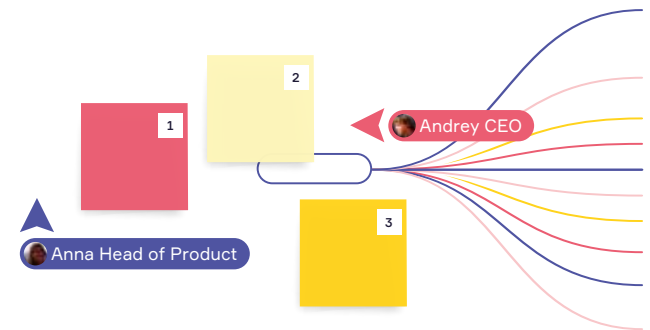

Miro is the infinite, online whiteboard that never runs out of space or gets erased

- Multi-user with cursor tracking
- Contextual commenting
- Presentation mode
- Screen sharing
- Video calls
- Voting
- Timer

miro

Work as if you are in the same room, anytime, anywhere

- Ideation and brainstorming
- Research and design
- Strategy and planning
- Agile workflows
- Mapping and diagramming

Create and innovate faster on the platform built for the way you work

- Ready-made templates and frameworks to use and customize
- Many pre-built integrations and plugins such as Jira, Sketch, Slack, and more
- Developer Platform to create custom integrations and plugins for your unique workflow

Loved by over 3 million users worldwide,
from companies like

Miro is so easy to use, so flexible, and allows me to collaborate with people remotely in a way I thought was only possible in person. Google Apps meets Keynote meets Illustrator. Bravo.
